Kecelakaan di Jalan Tambang Terbuka Grasberg

On Saturday, September 27, 2014, around 07.24 Papua time, an accident occurred involving a unit of Toyota light operational vehicle consisting of eight passengers and one driver, with a Haul Truck (CAT 785) unit operated by one driver, at Grasberg Surface Mine area PT Freeport Indonesia (PTFI). After the incident occurred, Grasberg Mine Emergency Response Team Rescue was immediately deployed to provide relief and evacuation process. A total of 5 miners have been evacuated safely, while 4 fatalities have been declared and are evacuated to Tembagapura Hospital.

Safety is PTFI priority, therefore Grasberg Surface Mine activities are now on hold to support the investigation process. PTFI has reported the incident to Ministry of Energy and Mineral Resources (MEMR). The entire PTFI family extends its most heartfelt condolences and prayers to the families of our late employees.
